

Case Study: Orchestrating a Seamless Transition Amid Transformation

Healthcare

Interim Finance

This \$6B multinational healthcare and medical device company is the leading provider of renal care in the US.

9

Total placements

1 senior accounting leader

8 senior finance leaders

2 weeks average time to fill

CHALLENGE

The healthcare leadership team needed to ensure a smooth transition of a divested \$2B entity while converting from a consultancy to a full staff augmentation model.

The consulting firm on the project introduced the healthcare leadership team to LaSalle, confident they could deliver flexible talent solutions on an expedited timeline with qualified talent.

GOAL

Identify highly qualified and experienced finance and accounting professionals quickly to ensure a smooth transition of the divested entity.

Place Interim professionals to spearhead consolidations, corp development, data analytics data integration / separation, external reporting, FP&A and technical accounting.

“During this transformative period, LaSalle Network swiftly emerged as our trusted partner, delivering the most flexible, cost-effective, and highest quality talent solutions for our evolving needs.”
